

Testimonial

July 12, 2006

When I bought my first home, I knew that it was an older building that had just been renovated. What I didn't realize is that they had used my ducts as a dustbin.

Ken spent a long and grueling day washing the grates, checking the filters and thoroughly cleaning my ducts. At each step he invited me to learn more about the process and to see the conditions. I was amazed! There was everything from toys to chunks of plaster in the ducts, not to mention the cobwebs.

Since I've had my ducts cleaned, I have gone from sweeping up dust every day (usually behind the doors) to barely having to do a once over, once a week. Even more, starting the next day, my eyes were clear and I woke up breathing easily. I had no idea that waking up stuffy every morning for two years had been from dust allergies.

I am extremely happy with Ken's service, and will be referring Mohawk Duct Cleaning Services to my family, friends and neighbors!

Sincerely,

Brooke Gordon
